Jacqueline,

Thank you so much for this information and the additional support during the FTAC meeting. We do not have this topic on the agenda but do anticipate that it will come up during the Q&A and discussions.

Take care and see you online later this month.

**Subject:** [EXTERNAL] RE: FTAC prep - federal bill for funding for Red Hill

Aloha Thu,

I hope this email finds you well. I have also included Matthew Bernard, Military Fellow, from our Washington, DC office who will also be in the meeting.

Attached is information regarding the latest on what we have on the DC front. I hope this is helpful.

Please reach out to us if you have any further questions. Thank you.

Below is a summary of the legislation on Red Hill that we can distribute to the FTAC.

Summary of Congressman Case's legislation on Red Hill:

- Defense Appropriations Bill: Requested and received a funding level of \$5,000,000 for the Improving the Safety of Underground Fuel Storage Tanks at the Red Hill Underground Fuel Facility. We expect these funds will support a range of research activities, to include corrosion evaluation, automated inspection, technical support for the development and

assessment of double-wall structures and their equivalents, early leak detection, and X-ray photoelectron spectroscopy to support detailed surface analysis.

- National Defense Authorization Act: Report language requiring an inspection of the piping and support infrastructure at Red Hill. This inspection focuses on the appurtenances and piping of the facility rather than the tanks, which have a separate and more comprehensive inspection requirement. This inspection is to be conducted by an independent API certified inspector.
- o \*This amendment was developed separate from the contested permit recommendations and ongoing Navy investigation, but in consultation with many parties who felt that the piping infrastructure (not the tanks) needed to be evaluated.\*

**Subject:** FTAC prep - federal bill for funding for Red Hill

Aloha Jacqueline and Jasmine,

Since the recent news article regarding the introduction of an amendment to a bill to request additional funding for Red Hill facility improvements, this topic may come up during the Fuel Tank Advisory Committee (FTAC) meeting on October 28. Can I assume that Jacqueline and Ikaika will be responding to any inquires and questions about this? If not, please advise how to handle.

Thank you,

**Thu "2" Perry**
